## 1. Github 가입 <http://github.com/>

The screenshot shows the GitHub homepage in a Windows Internet Explorer browser. The address bar displays <https://github.com/>. The page features the GitHub logo and navigation links: Explore, Features, Enterprise, and Pricing. A red dashed circle highlights the 'Sign up' button in the top right corner. The main content area has a dark background with the text 'Where software is built' and a description of GitHub's services. To the right, there is a sign-up form with three input fields and a green 'Sign up for GitHub' button. Below the button, there is a disclaimer about terms of service and privacy policy. At the bottom, there is a section for an event in San Francisco and a link to learn more about GitHub Universe.

### 3. Sublime Text 2 다운 및 설치: <http://www.sublimetext.com/2>

The screenshot shows the Sublime Text 2 website as it appeared in 2013, viewed through an Internet Explorer browser. The browser's address bar shows the URL <http://www.sublimetext.com/2>. The website has a dark navigation bar with links for Home, Download, Buy, Blog, Forum, and Support. The main heading is "Sublime Text 2" in a large, bold font, followed by a "Download" subheading. The text states that the current version is 2.0.2 and mentions that Sublime Text 3 is in beta. A list of operating system links is provided: OS X (10.6 or later), Windows (with portable versions), Linux 32 bit, and Linux 64 bit. It also notes that the software is free to evaluate but requires a license for continued use. Below this, there are sections for "Version 2.0.2" (released July 8, 2013) and "Version 2.0.1" (released July 14, 2012), each with a list of updates. The browser's status bar at the bottom shows "인터넷 | 보호 모드: 설정" and a zoom level of 150%.

# Sublime Text 2

## Download

The current version of Sublime Text 2 is 2.0.2.

Sublime Text 3 is currently in beta, and contains many improvements over Sublime Text 2.

- [OS X](#) (OS X 10.6 or later is required)
- [Windows](#) - also available as a [portable version](#)
- [Windows 64 bit](#) - also available as a [portable version](#)
- [Linux 32 bit](#)
- [Linux 64 bit](#)

Sublime Text 2 may be downloaded and evaluated for free, however a license must be [purchased](#) for continued use. There is currently no enforced time limit for the evaluation.

Please submit feature requests to <http://sublimetext.userecho.com/>. For notification about new versions, follow [sublimehq](#) on twitter.

## Version 2.0.2

Release Date: 8 July 2013

- Sublime Text 3 beta is now available from <http://www.sublimetext.com/3>
- Removed expiry date
- Backported various fixes from Sublime Text 3
- Improved minimap click behavior. The old behavior is available via the `minimap_scroll_to_clicked_text` setting
- Added `copy_with_empty_selection` setting, to control the behavior of the copy and cut commands when no text is selected

## Version 2.0.1

Release Date: 14 July 2012

- Keyboard input while dragging a selection will cancel the drag
